Translations of Marks to Letter Grade:

This course uses a **Weighted Grade Point Calculation** converted to a letter grade
 Evaluative components will receive numerical scores which are converted to letter grades (see grading scale above).
 The letter grade on each piece of work is converted to university scale grade points X weighting factor for assignment = weighted grade points. The total of all the requirements yields the grade point for the semester. Sample: A- converted to 3.7 x .15 = .555 for a piece of work weighted at 15% of the final course grade.

OR

This course uses a **Final Percentage Calculation** converted to a letter grade
 Evaluative components will receive numerical scores converted based on the weight of the assignment. The numerical scores are added to achieve a total percentage score out of 100. This percentage is then converted to a letter grade for the course (see grading scale above). Sample: Midterm exam is 20%, paper 30%, in class activities 20% and final exam 30%. The student scored 15/20; 25/30; 20/20; and 28/30 for a final course total score of 88/100 which is a final course grade of A-.

STUDENT MISCONDUCT

Plagiarism is a serious offence which will result in the following penalty and application:

1. In cases in which the dean and/or faculty is satisfied that a student is guilty of plagiarism, cheating or other academic misconduct in circumstances which suggest a clear intention to deceive or otherwise commit an academic offence, the normal penalty will be either suspension or expulsion from the faculty.
2. In cases in which the dean and/or faculty is satisfied that an offence has been committed, but doubt is left as to the existence of a clear intention to deceive or otherwise commit an academic offence, the normal penalty will be probation.
3. In cases where a student is found guilty of more than a single offence, the normal penalty will be expulsion from the faculty, and in the most serious cases, expulsion from the University.

While it is recognized that scholarly work often involves reference to the ideas, data and conclusions of other scholars, intellectual honesty requires that such references be explicitly and clearly noted.

Plagiarism occurs not only when direct quotations are taken from a source without specific acknowledgement but also when original ideas or data from the source are not acknowledged.
