Greg's Wings IPE Event

EVENT OVERVIEW

2023

Summary of Event:

Total Participants:
212

Disciplines:
18

Introduction:
- Students were assigned to interprofessional student groups (8-9 participants) and collaborated on a simulated virtual case
- Together they worked in collaboration with the patient to plan and provide care

Learning Objectives:
- Collaborative Teamwork in a clinic setting
- Role Clarification and Understanding
- Effective Communication and Collaboration
- Safe and Non-Judgemental Environment

Key Successes:

Small Group Discussions
- Participants appreciated having the opportunity to interact in small groups with individuals from a wide variety of backgrounds
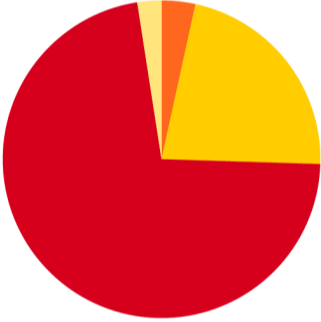

Patient Interaction
- Many appreciated the opportunity to gain insight into patient perspective through use of the video

Key Learnings:

Increased Facilitation
- Opportunity for facilitators to provide guidance and facilitate a more natural flow of communication
- More time at the beginning of the session to familiarize with others in the group
- More focus on some of the system issues surrounding Gregg's experience

IPE Experience:

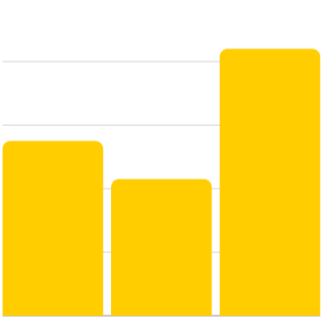

Overall, the experience was valuable

I would recommend this event to a colleague

This learning was impactful
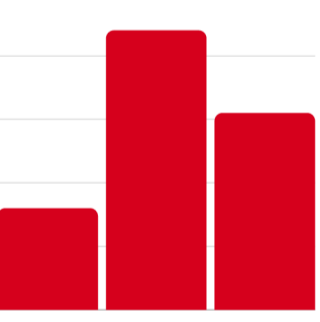

Student Understanding:

Your understanding of other health professional roles has:

Your understanding of collaborative practice has:
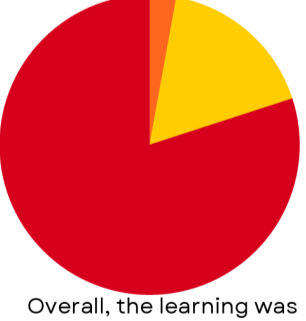

Your understanding of the patient as a member of the collaborative team has:

Your understanding of team functioning has:

Facilitator Feedback:

Overall, the learning was valuable for students

I feel this event helped students develop role clarity competence

"genuinely one of the most impactful and well organized events I've ever participated in"

Looking Ahead:

Changes going forward:
- Continue to include interactive components such as videos and personal stories, but consider adding more interactive elements to keep participants engaged.
- Ensure that the content is clearly connected to practical applications and real-world scenarios.
- Implement a system for gathering ongoing feedback throughout the event to make real-time adjustments and improvements.
- More time for open ended disucssions
