The Faculty of Nursing requires a final oral examination of the Master of Nursing course-based project.

1. SCHEDULING
In advance of the completion of Nursing 634, the student begins discussing with the supervisor the timeline to set the date and time of the oral exam. It is the responsibility of the supervisor to schedule the date for the project oral examination, and recommend all additional examining committee members to the Associate Dean, Graduate Program for approval. It is the student’s responsibility (with help from the supervisor) to arrange the presentation venue (in an agency setting or at the University of Calgary). The place/audience for the presentation will vary with each student depending on the nature and type of project.

2. COMPOSITION OF COURSE-BASED SUPERVISORY COMMITTEE
As identified in the Master’s Project Manual (2015), the MN course-based supervisory committee will consist of 3 members: Student’s Supervisor (Chair), 1 doctoral prepared member from faculty, and 1 preferably master’s prepared member (from the project setting/agency) as applicable.

3. COMPOSITION OF MN COURSE-BASED ORAL EXAMINATION COMMITTEE
The oral examination committee will consist of the course-based supervisory committee as above, and one additional internal external member who will be added to the final examination committee.

4. INTERNAL EXTERNAL EXAMINER
The Internal External Examiner named above meets the following criteria:
- Has not collaborated with the supervisor in the last five years
- Is not personally related to the student, and has not worked with the student
- Has not been a supervisor in the student’s department/program for the last three years
- Normally PhD prepared
- External to the Faculty of Nursing, but internal to the University of Calgary

5. ORAL EXAMINATION FORMAT
The final oral examination of the student's completed scholarly project will consist of one of the following options:
1) A traditional oral examination with supervisory/examination committee members, with the option of a presentation to the public at a later date, or

2) A combined public presentation/examination committee exam on the same day - where the last half of the exam will consist of supervisory/examination committee members only. Upon conclusion of the public presentation, the student will have the opportunity to answer any questions by those in attendance. The examination committee and the student will then convene in a private room where the exam process continues. The Examination Committee members continue with additional rounds of questions to the student related to the project.

The articulation/defense of the project will be the common element for all students. In the oral exam the student will present the project to the committee members and other interested persons for up to 30 minutes. The format will be a power-point presentation. The duration of the exam including the public oral presentation will not exceed 2 hours (excluding committee deliberation). Once questioning is complete, the student is asked to withdraw from the room for the committee deliberation. An individual examiner’s report is not required.
6. PROJECT ORAL EXAMINATION CHAIR

The student’s supervisor shall serve as the oral examination chair.

7. POST-EXAMINATION

In the deliberation process all members including the student’s supervisor are voting members. In this vote the examiners are considering the oral exam process only, as the project committee has already approved the project itself in NURS 634 suggesting that project is ready to defend. Specifically the examiners are considering the scholarship of the power point, oral presentation, defense of the project, and response to questions. Before any discussion of the student’s performance each member must identify, by secret ballot, which recommendation he/she favors (pass or fail). This allows the committee an opening for full discussion of the student’s performance. Following this discussion each committee member will vote again. After the final vote each examiner must record a recommendation of pass or fail on the Official Faculty of Graduate Studies Report of Oral Examination Form, delivered to the Graduate Programs office within 24 hours of the exam for immediate forwarding to FGS. A unanimous decision must be reached.

RECOMMENDATION OF A “PASS”

If the decision is a pass, the supervisor will provide feedback to the student.

FAILURE TO REACH A UNANIMOUS DECISION ON THE FINAL ORAL EXAMINATION FOR A COURSE-BASED MN PROJECT

If the examiners are unable to achieve unanimity regarding the oral exam, there must be no further discussion in the examination room, and the supervisor (chair of the exam) must select “Failure to Reach a Unanimous Decision” on the Final Oral Examination Report form. The supervisor should immediately inform the Associate Dean, Graduate Programs in the Faculty of Nursing regarding the "lack of unanimity". the final decision will be at the discretion of the Associate Dean, Graduate Programs who, before rendering the decision, may consult with anyone involved in the post- examination deliberation.

RECOMMENDATION OF A "FAIL"

- If the committee’s recommendation to the Associate Dean, Graduate Programs in the Faculty of Nursing is “fail”, this result will immediately be provided to the student by the supervisor.
- Within 5 working days of the failed oral examination, each examiner must submit a written report to the Associate Dean Graduate Programs providing reasons for his/her vote.
- The Associate Dean Graduate Programs may uphold the “fail” in the case of a clear fail or refer to FGS for decision in the case of an unclear fail.
- If the Associate Dean Graduate Programs upholds the “fail” after consultation with the Supervisor, the Associate Dean Graduate Programs then summarizes the essential points from the memos to the student, copied to the supervisor.
- The graduate program, within ten working days from the examination, will send a notice of failed oral exam to the student.

RE-TAKE of ORAL EXAMINATION

Normally, the student will be allowed a re-take of the oral examination no sooner than 2 months and no later than 6 months of the failed examination. Normally, the same project oral examination committee members will be involved in the re-take of the exam. Only one re-take will be permitted
Faculty of Nursing Graduate Programs
MN Course-based Project Oral Examination Timeline

6 weeks prior to the oral exam
• Supervisor, in collaboration with the student, chooses an Internal External examiner
• Supervisor contacts the exam members and confirms the exam date/time/location
• Supervisor’s administrative assistant books the exam room
• Student prepares for the final project presentation (comprehensive oral exam).

4 weeks prior to the oral exam
• Supervisor, in collaboration with the student, completes and submits MN Course-based Comprehensive Oral Exam Timeframe to Graduate Programs Office. This also indicates that the project committee has approved the final project (written).
• Graduate Programs office generates the Notice of Comprehensive Oral Examination document for signatures from the student, supervisor, and Graduate Program Director.

3 weeks prior to the oral exam
• Student submits the final project documents (manuscript or other scholarly outputs) to Graduate Programs office at nursgrad@ucalgary.ca.
• Students may also have a PowerPoint presentation for the oral exam that should be sent to the Graduate Programs office at least 2 working days prior to the oral exam.

2 weeks prior to the oral exam
• Graduate Programs office sends the following exam documents to the student, supervisor, and exam members, and receives confirmation of receipt of documents and attendance at exam:
  • Notice of MN Oral Exam (Student, Supervisor, Examiners)
  • Student’s project presentation (Student, Supervisor, Examiners)
  • MN Course-based Report of Oral Exam (Supervisor) An individual examiner’s report is not required.*
  • MN Project Final Examination Defense (Student, Supervisor, Examiners)
  • Guidelines for Evaluation of Project (Student, Supervisor, Examiners)
  • Champagne Request Form (Supervisor)
  • "Quiet Please" sign (Supervisor)
  • Parking pass, if applicable (Examiners)

MN Course-based oral exam
• MN course-based comprehensive oral examination on the presentation (articulation of the project and response to questions).
• Exam result will be immediately provided to the student by the supervisor.
• Each examiner must record an evaluation of pass or fail on the Report of Comprehensive Oral Exam Form, which must be delivered to Graduate Programs office by the supervisor after completion of the exam.
• The oral exam normally takes place in Spring/Summer. If the student want to avoid paying spring/summer fees, the oral exam would need to be completed by spring/summer fee payment deadline. Please refer to Graduate Calendar for specific dates.
• For more details on the exam process, please see MN Project Manual.

Convocation
• Student receives Congratulatory Letter and Notice of Completion of Course-based Degree Requirements from the Grad Programs office.
• Student ensures a successful completion of all degree requirements and no overdue fees in the student account and completes an Application for Degree through Student Centre via myUofC portal.
• The convocation for MN course-based students normally takes place in November.
Faculty of Nursing Graduate Programs
MN Course-based Project Oral Examination Committee

Supervisor
- Chair of Supervisory Committee
- PhD prepared faculty member

Co-supervisor
(if applicable)

Committee Member
- PhD prepared normally from Faculty of Nursing

Committee Member
- Project setting/agency
- Master's prepared degree

*if you wish to choose an examiner who has not previously served in a supervisory or examiner capacity from outside of the University of Calgary, the examiner’s CV must accompany the Exam Timeframe form. The Internal External examiner should be PhD prepared. (All exceptions should be discussed with Associate Dean, Graduate Programs in advance of setting up the examination.)

Supervisor & Co-supervisor (if applicable)
- Act as Examination Chair

An Internal External Examiner*:
- Internal to the UofC
- External to the Faculty of Nursing
- Normally, PhD prepared

Examination Committee Members

Project Supervisory Committee members
