Both the University of Calgary and the Faculty of Nursing endeavor to create and maintain a positive and productive learning environment where students, faculty and staff are treated with respect and conflict is addressed in a positive and respectful manner. As a member of the Faculty of Nursing we all share a responsibility to act on concerns brought forward by students.

Definition:

In this document:

“Abuse” means a consistent pattern of mistreatment that causes either physical or emotional harm. It can include such tactics as verbal, nonverbal, psychological, physical abuse, humiliation, intimidation or any other treatment which may diminish the sense of identity, dignity, and self-worth. Includes, electronic forms of contact (cyberbullying or cyber harassment).

Purpose:

To foster a respectful and supportive learning environment within the Faculty of Nursing that contributes to the safety and security of students.

To outline a process and resources available for instructors when a student reports that they have experienced or witnessed abuse.

To highlight zero tolerance of abuse or bullying within the Faculty.

Process:

If a student discloses abuse the following is recommended:

- Ensure resources are available to support the student(s) who has been affected by an incident of abuse. Refer to “Campus Mental Health Strategy: Student in Distress” website: https://www.ucalgary.ca/mentalhealth/home/i-think-i-need-help/students#quickset-field_collection_quicktabs_0
- If the Faculty Member determines that the abuse needs to be brought to the attention of the Associate Dean, with the student’s permission, both the Faculty Member and the Student will arrange for a meeting with the Associate Dean, Undergraduate Practice Education (Nursing Chair at MHC).

Point of Emphasis:

Anyone making a report of abuse or providing information in good faith will not be penalized for doing so.
